

## Policy on Testing Individuals with Disabilities

In accordance with Title III of the Americans with Disabilities Act (ADA), the American Board of Orthodontics (ABO) will provide reasonable accommodations, including appropriate auxiliary aids, to examinees with disabilities, and will ensure that its examinations are administered in facilities that are accessible to individuals with disabilities or that alternative accessible arrangements are made. An examinee must provide ABO with acceptable medical or other documentation of the disability and recommended accommodations (which may include evidence of past modifications, accommodations, or auxiliary aids or services received in similar testing situations) at least four (4) weeks in advance of the examination date. Requests that require a fundamental alteration of the purpose and nature of the examination will not be accommodated.
